For the prevention and cure of
BILIOUS AND MALIGNANT FEVERS
is recommended
HAHN's ANTI-BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age. They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetité—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficatious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

Hamilton's Elixir,

A sovereign remedy for colds, obstinate coughs, asthmas, sore throats, catarrhs, and approaching consumptions.—To parents who have children afflicted with the *HOOPING COUGH*, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable. The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.

Hamilton's Grand Restorative,

Is recommended as an invaluable medicine for the speedy relief and permanent cure of

Nervous Disorders	Violent cramps in the stomach and back
Consumptions	Indigestion
Lowness of spirits	Melancholy
Loss of appetite	Gout in the stomach
Impurity of blood	Pains in the limbs
Hysteric affection	Relaxations, etc.
Inward weaknesses	
and debility	

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout, rheumatic gout, palsy, lumbago, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc. etc.

Lee's Ointment for the Itch.

Warranted an infallible remedy at one application, may be used with perfect safety by pregnant women, or on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

Hahn's true & genuine German Corn Plaister.

An infallible remedy for corns, speedily removing them root and branch, without giving any pain.

The Genuine Persian Lotion,

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unrivalled efficacy in removing blemishes on the face and skin, freckles, pimples, inflamatory redness, scurfs, tetters, ringworms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water,

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

Tooth Ache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

Lee's Infallible Ague and Fever Drops

For the cure of agues, remittent and intermittent fevers.

☞ At the place of sale pamphlets may be had gratis, describing cures performed by the above medicines; the number, importance and respectability of which, fully justify every article of this advertisement.

June 6 M. DEVAUGHN.

Fifty Dollars Reward.

THERE came to the stable of the subscriber, on Monday the 1st inst. a person calling himself
Mr. PEYTON,
and obtained a horse and gig on hire, as he said, to go to Ellicott's Mills, and return in the afternoon of the same day; and as he has not yet returned, there is strong reason to believe that his intention is to swindle me out of my property. He is about 5 feet 8 or 9 inches high, apparently about 25 or 30 years of age, of genteel appearance, and well calculated to deceive.

The horse is a grey, about 15 hands high, 9 or 10 years old, has a switch tail, a speck on the right eye, and moves swiftly. The gig has a green body, carriage and wheels black, the lining of blue cloth, red stuff top, linings, plated double—outside joints.

I will give the above reward for the recovery of the horse and gig, and the detection of the *scoundrel*, or 20 dollars for the horse and gig only, and all reasonable expenses if delivered to me; No. 26, North Liberty street, Baltimore.

ALEXANDRIA GAZETTE
AND DAILY ADVERTISER.

PUBLISHED BY
SAMUEL SNOWDEN,
ROYAL-STREET.

Daily Gazette $7 ...Country Gazette $5.

SATURDAY, JUNE 20, 1818.

Original.

It was said, some years ago, by one of the most penetrating observers and profound investigators of the human heart, that the growing fastidiousness and overstrained delicacy of the age was an unerring diagnostic of its advancement in real impurity and unbecoming knowledge. He insisted that the farther we advance in debauchery, the more scrupulous and morbidly nice we become in our taste and apprehension; that to conceal the conscious licentiousness of our private cogitations we draw over it a thin, flimsy veil of preposterous affectation—plastering and daubing over faces hardened by the bronze of occulted guilt, with a meretricious glow of artificial modesty, the ineffectual semblance, or rather the mockery of innocence and sensibility. Half a century ago one of the first satiric and comic writers in the language which we all speak, had a sneer in one of his inimitable novels at this preposterous folly, in the person of an antiquated maiden lady, who travelling in a stage coach in England, was so highly incensed with a fellow traveller for unwarily uttering the word "LINEN," that she insisted either he or she must quit the coach, if he was once more guilty of any similar act of indecorum. This prurience of imagination, we on this side of the Atlantic carry to an excess that would be truly laughable, if our mirth were not checked by the alarming conviction that it arises from a too great familiarity in secret thought with objects, upon which a mind perfectly pure ought never to have dwelt. When the chaste words which in times past were honoured from our dictionaries to wrap obscenity in the external garb of decorum, and were perverted to the purpose of conveying *figuratively* offensive ideas, cannot be utered in their real original sense, without being associated with the foul idea to which they have been on a few bad occasions most wrongfully appropriated, without sending all the blood in the veins of every female present, galloping pell-mell to their cheeks, and when for that reason the uttering of them is thought necessary to be avoided—it is an infallible proof of the familiarity of the mind with gross and prurient images. We are not aware to what derision, and what is worse, suspicion, this affectation subjects us. How comes CHANTICLEER, "the trumpet to the morn," that valiant champion of the farm yard, who "doth with his lofty and shrill sounding throat awake the god of day" to be driven out of use, (as a word) out of compliment to the smutty fastidiousness of hot imaginations? How comes the word ROOSTER (which never had existence till it was snatched from the stithy of some modern Vulcan toiling to gratify the voluptuous fancy of some *Venus pudibundus*—and is not at this moment to be found in any dictionary or book of authority) to be brought into use, and to shoulder out the time-immemorial inmate of our language? These are the abominable excrescences of tainted imaginations; and exactly verify Mr. Sheridan's elegant sarcasm on the painting of a certain description of females; "they increase the blush in their cheeks, in proportion to the diminution of their modesty." It is not many months since I frightened a young lady out of her father's drawing room by innocently saying that I liked the curve in the BOTTOM of the chairs—upon which, as if a wasp had stung her, she bounced up, and with her face the color of crimson, and swelled with a suffusion of blood, she fled out of the room. I was greatly concerned—and could not help exclaiming in the words of the doctor to lady Macbeth, when she is telling naughty tales of herself, in her sleep—"go to, go to; you have known what you should not."

I was expressing my disapprobation, some time ago, of young girls and boys being taught at the same school, when a matron, who it is probable was better acquainted with the subject than I was, assured me that associating girls with boys was infinitely preferable, as it imposed a restraint on their conversation, by which it often happened that the impure thoughts of one or two children, previously vitiated by the talk of and intercourse with negro wenches and bad servants, has secretly been communicated to a whole school.—And thus it is that parents, for want of judgment and vigilance, expose the pure waxen minds of their innocent offspring to be sullied by contact with polluted servant members, and filled with obscure images, of the impropriety of which they are so sensible, that the very consciousness of understanding them overwhelms them with shame.

Exactly of a piece with this artificial fastidiousness is the prudery with which many of the very best novels in our language are rejected: not because they present new and improper images to the yet blank imagination; but because, like an approaching wedding and many other of the most innocent and laudable and indeed necessary transactions of life, they call up images already prematurely impressed upon their fancies by the polluting conversation of low and profligate servants, or of those who have been sullied by such intercourse. With those wonderful effusions of genius, Fielding's and Smollett's novels, a young lady would blush to be acquainted: and why?—they would pollute (so say their mistaken instructors) their young minds with ideas unfit for them—they would impart to them too much knowledge of a particular kind—they would inflame the blood! Let me tell those who think so, that a few of the playhours of three out of four of our day schools will circulate more improper knowledge, and of a grosser kind, than all the volumes of those novelists. And here again how inconsistent people are! A parent who would be or affect to be startled at her son's reading Peregrine Pickle, feels no uneasiness whatever at seeing him panting over and insatiably glutting Thomson's voluptuous picture of Musidora bathing, even when heightened by all the ocular charms of an exquisite engraving;—and a fond mother, who would almost as lief see the damnable poems of Rochester as Sterne's Sentimental Journey in the hands of her daughter, will yet hear her, with parental pride and felicity, applauded for her elegant and feeling recitation of Pope's Eloisa to Abelard; "in which," says a great moral critic, "Pope has taken great pains to make a penitent nun speak the language of a prostitute."

CURIO.

THEATRICAL REGISTER.

The Virginia Company will leave Philadelphia in a few days for the south.—We understand it is the intention of the managers to play a few nights in Alexandria on their passage through here.

The Charleston Company are performing in Norfolk.

The Boston Theatre is closed for the season.

Mr. Blisset has returned to Baltimore, after an absence of three years. He played on the 12th inst. for the benefit of Mr. Warren.

Mrs. French gave a second and last Concert at Norfolk on the 16th inst.

The Board of Health of the city of Charleston have published some very judicious regulations to prevent a recurrence of the Yellow Fever. Among others, a penalty of 2000 dollars is attached to every neglect to open the cellar doors for a few hours every day.

IMPORTANT!

Private letters from Georgia, received in Washington city yesterday, state that on the 21st of May, general Jackson took possession of Pensacola; having made certain requisitions which had not been complied with, he carried the fortress by storm. [*Balt. Patriot, June 17.*

One hundred and forty free Negroes and Slaves, belonging to the "*African Church*," were taken up on Sunday afternoon by the city guard, and lodged in the guard house. The city council yesterday morning sentenced five of them, consisting of a bishop and four ministers, to one month's imprisonment, or to give security to leave the state. Eight other ministers were also sentenced, separately, to receive ten lashes, or pay a fine each of five dollars. [*Charleston Pat.*

In the state of New York are twelve hundred attornies and counsellors at law, of which two hundred and ninety belong to the city. We believe there are but one hundred and fifty in New-Jersey.

[*Trenton True Amer.*

The aggregate length of the streets in New-York has been estimated at thirty-eight miles—and 60 men have been hired to sweep the whole once a week.

Our readers will recollect that some short time since, we published from the New-York Evening Post an account of an outrageous and unmanly assault on the person of the editor of that paper, Wm. Coleman, esq. by a certain Henry B. Hagerman, which left him barely in possession of his life, and no more.—On Saturday last the trial came on in N. York, when Hagerman was convicted by a jury of an assault and battery of the "*highest nature.*" He offered nothing in justification. It came before the court as an assault of the most aggravated nature, committed without a shadow of provocation. For this offence the prisoner was not sentenced to imprisonment in Bridewell or the Penitentiary; but simply fined $250, which he seems to have *guessed at*, for he came into court with the sum in his pocket, and paid it down.

[*Balt. Fed. Rep.*

CAUSE AND EFFECT.

The Boston Daily Advertiser informs us that a vender of sausages in that town being charged "in an anonymous publication with having vended sausages that were not good, and being unable to relieve himself from the imputation," was so grievously afflicted at the wound thus cruelly given to this reputation, that "on Saturday last he put an end to his existence by cutting his throat with a butcher knife." We join with the Boston editor in the hope, that this delicate sensibility to reputation, and the fatal and ever to be regretted consequences which has followed, will be a solemn warning to anonymous writers—and that it will induce editors of newspapers to be very careful what they publish. [*N. York paper*

A gentleman to whom the following extraordinary Circular has been addressed, has handed it to the Editors with the remark that "perhaps the patronage of the press may be as important to the contemplated enterprise as any other." It is not thought necessary to preface it with explanations, or accompany it with comments [*National Intelligencer.*

To all the World.

I declare the earth is hollow, and habitable within, containing a number of concentrick spheres, one within the other and that it is open at the poles 12 or 16 degrees; I pledge my life in support of this truth, and am ready to explore the hollow, if the world will support and aid me in the undertaking.

JNO. CLEVES SYMMES,
Of Ohio, late capt. of Infantry.

N. B. I have ready for the press, a treatise on the principles of matter, wherein I show proofs of the above positions, account for various phenomena, and disclose *Dr. Darwin's Golden Secret.*

My terms are, the patronage of this and the new worlds.

I dedicate to my wife and her ten children.

I select *Dr. S. L. Mitchell, Sir H Davy, and Baron Alex. Humboldt*, as my protectors

I ask one hundred brave companions, well equipped, to start from Siberia in the fall season, with Reindeer and sleighs, on the ice of the frozen sea. I engage we will find warm and rich land, stocked with thrifty vegetables and animals, if not men, on reaching one degree northward of latitude 82; we will return in the succeeding spring.

The following is a copy of a letter from an American citizen, late a lieutenant in the army of the United States, who joined Mina's expedition. How many of our fellow citizens have been enticed from their country, to suffer a similar fate, it is not easy to estimate; but the number amounts to hundreds if not thousands.

A LETTER TO A FRIEND.

Havannah, May 1, 1818.

"DEAR SIR—I now, for the first time since I have been a prisoner, have had it in my power of informing you of my miserable situation. I thought my sufferings were great before I landed in Mexico—as soon as we landed I found we were all lost. I then got permission to return home, and was on board of a ship to return to the United States; but unfortunately for me, she was captured a few days before she was to have sailed. I made my escape to the shore, and went to Mina's fortification, which mounted 8 pieces of cannon—the whole force to defend which, amounted to 100 men. Mina entered the country with 600.—The fort in which I was was attacked on 12th June, 1817; there was a cannonading between the royalists and the patriots until the 15th, when the royalists finding their force so much superior, came within grape and musket shot with 18 pieces of cannon, and twenty five hundred men. The fort held out for ten hours. The Americans in the fort amounting to thirty, found they had to do all the fighting—the remainder were Spaniards and Frenchmen, who proved cowards, although they declared they would blow up the fort before they would be taken. The Americans, finding they were either to be taken by storm, and put to the sword, or be blown up, thought it best to present themselves—I presented myself and the fort capitulated. The terms of capitulation were the lives of the garrison should be spared, and that they should be sent to their respective countries. They have all been held as criminals, and loaded with irons. Those who presented themselves with me, had their liberty for ten days—passports were promised them, and assurances given of being sent home; we have, however, been detained as prisoners. I have not as yet, had any irons on me. I was sent to a town called Attamudea, where I remained for two months. I lost all my clothing, with the exception of those I had on when I presented myself: I have been nearly naked ever since, and covered with vermin. From this town I was sent, in company with fifteen officers, likewise prisoners, through the country nearly to Mexico, and then on to Vera Cruz, the distance I traversed was 300 leagues, the greater part of which was the worst road I ever travelled in my life, and over mountains which took us five and six days to cross. When we got near Mexico, we found a lovely country on to Vera Cruz. The road from Mexico to Vera Cruz is the handsomest I ever saw. I remained in Vera Cruz till the 5th of April, almost starved and nearly destitute of clothing. My allowance was four ounces of bread per day, with twelve spoons of rice three times a day.

From Vera Cruz I was sent to this place, and since my detention here, have written to several Americans, but never found one that would say; Here is a shirt or a dollar. No; experience has taught me to know, that when a man becomes reduced, there are few that will cast towards him a look, from which a conclusion might be drawn that the heart felt sympathy! In a short time, I shall be sent to Cadiz, where I am doomed to be detained as a prisoner for ten years. Many are the conjectures at this place, relative to the probability of a war breaking out between Spain and America. I wish you to state my case to your friends at the department, as I pursuade myself my government will be prompt in demanding my liberation. Such is my misery, that I never could have believed it within the capacity of man to endure it. Mina's expedition is lost. Col. Young, late of the United States army, and seventy Americans, all of whom were attached to the late United States Army were taken and shot, with two American officers, the morning after I presented myself. I have had to smuggle this paper, together with the pen and ink, from on board of an American vessel. You will give my love to my brothers and sister, and all of my friends. FAREWELL!"

"N. B. The following are the names of some of the officers, attached to the late United States army, who entered in the expedition of Mina, and have been shot:

Col. Young; captains Cook and Gordon; lieutenants Lanay, Luking, Sutton, Webb, Stone, Sterling, Crocker, Witmore, Beall, Roberts and Wilson.

Lieut. William Rigle, of the United States ordnance department was made a prisoner, and died in my presence at Vera Cruz. Also a Cadet from West Point. His name was Haveland. There was another Cadet taken, who has been shot, by the name of Mackerson."

MORE SEA SERPENTS.

Boston, June 13.

We can vouch for the intelligence and veracity of the medium through which we have received the following information, so interesting to the naturalists of our country:

Passengers just arrived from Eastport report, that a capt. Haggens of Frenchman's Bay, arrived there a day or two before they left, who informs that about 10 leagues s. s. w. of Monhegan he saw an object at the distance, as he supposed, of about a league, which had the appearance of a whale. As he drew nearer this animal suddenly rose with his head about five feet out of water, and came towards the vessel with astonishing velocity; he came immediately along side the vessel, so near that he could have reached him with an oar, and extended beyond the vessel considerably—the vessel is eighty feet in length. His head appeared about the size of his long boat, with a white spot on his breast, without fins, and covered with a kind of shell of quite a dark color. He had several bunches on his head, and his motion was of an undulatory kind; his tale shaped like that of a whale; his body about the size of that of a grampus, say 4 feet diameter. He soon disappeared, and very soon he saw two others of the same description, but considerably smaller. They came immediately before the vessel, and when within sixteen feet he fired upon one of them when he immediately disappeared, with a motion so quick as to throw the water on board the vessel. This animal spouted the water downwards. His men were so much alarmed with the appearance of these animals that they ran up the shrouds.

Captain Haggens is represented as a man of perfect veracity, in whose testimony entire confidence may be placed. His deposition before a magistrate, we understand, will be taken, and forwarded from Eastport.

TREATMENT OF CONSUMPTION.

There is some reason for thinking prussic acid, though it be the most active of poisons, may when properly diluted, be used with success, in pulmonary complaints. Six drops of Scheele's acid, diluted with three ounces of water, or vegetable infusion, given in doses of a spoonful every two hours, has effectually quieted very severe coughs. From a number of experiments made by Dr. Magendie of Paris, he thinks himself warranted in concluding "that the prussic acid, given in small doses, mixed with a certain quantity of water, may be advantageously employed as a palliative treatment of the consumption, with a view of calming the cough, facilitating the expectoration, and procuring sleep—and that as such, it must be considered as the first among the substances usually employed for similar purposes; as it does not seem to excite like the opiates, any colliquative sweat." The following points appear to Dr. Magendie to be already ascertained:—1st, That the pure prussic acid is a substance eminently deleterious and altogether unfit to be used as a medicine. 2dly, That the prussic acid diluted with water is beneficial in cases of cronic and nervous cough. 3dly, That this same acid may be useful in the palliative treatment of pthysis, by diminishing the intensity and frequency of the cough, and in procuring sleep, &c. 4thly, That there is reason to hope that this same substance may become advantageous, as a curative treatment of pulmonary pthysis, particularly when in an incipient state.

FROM GIBRALTAR.

By the arrival last evening of the sh[illegible] Bella, capt. Leslie, in 36 days from Gi[illegible]raltar, we learn that Mr. MEADE, la[illegible] American Consul at Cadiz, who had lon[illegible] been immured in prison in that city, w[illegible] set at liberty on the 4th of May. His l[illegible]beration was effected by our Governme[illegible] through the agency of our minister [illegible] Madrid.

It is said that the Russian vessels pur[illegible]chased by the Spanish government, were found on examination in a very defective state, and that all but one were condemned as unworthy of repair.

The U. S. ship of the line, the Washington, com. Chauncey, in 12 days from Port Mahon, arrived at Gibraltar on the 7th of May, and was to sail for this port about the 20th. The residue of the American squadron, then on a cruize, were expected at Gibraltar in the course of 10 or 20 days.

Prices at Gibraltar.—Flour, $11 3-4, in small parcels; rice, 6 3-4, dull; tobacco, Ky. 10 a 10 1-2, market stocked; Virginia 9 1-2 a 10, wanted; negro head, 14 a 16, rising; quicksilver, 43 a 45, plenty.

Markets at Marseilles, 17th April—Tobacco, Virginia, $12 a 13 per 104 lbs. flour, including bounty, 9 1-2 a 9 3-4; coffee, 24 a 27 cents; rice 6 a 6 1-2 per 100 lbs. Upland cotton, 35 cents.

By the arrival at quarantine of sloop Musidora, capt. Griffin, from St. Eustatia, we learn that on the 23th of May, a fleet of Patriots, consisting of thirteen sail, passed St. Eustatia, steering S. W. The agents of admiral Biron stated that their destination would be known in six weeks. [*ibid.*

THE SEA SERPENT AGAIN!!!

This monster made his appearance in Sag Harbor, on Sunday last. A party of gentlemen from this city, who were engaged trout-fishing, down the island, immediately abandoned their sport for this more noble game, and as they have offered a handsome reward for the co-operation of the Whales of Sag Harbor, in securing him, we have sanguine hopes of this wonderful animal being shortly exhibited in our city—to the confusion of all unbelievers. Valuable Property for Sale
AT PUBLIC AUCTION.

BY virtue of a decree of the hon. the Superior Court of Chancery for the Fredericksburg district, in Virginia, in a suit wherein the executors of John Stump, deceased, are plaintiffs and James Dennale defendant, will be exposed to sale, at public auction, on the premises, adjoining the town of Dumfries, in the county of Prince William, a WATER GRIST MILL, in complete order for manufacturing flour, on Quantico Creek, with two pair of five feet burr stones, and every implement and appurtenance thereunto belonging, and ten acres of Land about and adjoining the same; also, one other WATER GRIST MILL adjoining the aforesaid premises on Quantico Creek, with one pair of large burr stones and the necessary machinery, and a kiln for drying corn, and about 20 acres of land round and adjoining the same, laid off into clover lots, including one and an half acres, known by the name of the Saw Mill Tract; the whole of which property adjoins and is on a never failing stream of water, and the mills in sight of each other, and immediately adjoining the town of Dumfries.

I am directed by the plaintiffs to say, that two thousand dollars of the purchase money must be paid down, and that a credit for the residue will be given until the first day of November next.

The sale will take place on Saturday the 20th day of June next, at 12 o'clock, and immediate possession given the purchaser, and a deed made if satisfactory security is given to the plaintiff.

Public Sale.

BY virtue of a deed of trust from Richard B. Lee, and Elizabeth his wife to the subscribers (surviving trustees) to secure a debt due to Bushrod Washington of Mount Vernon, will be exposed to public sale on the premises for ready money, on Monday the 29th day of June next, at 12 o'clock, a part of the LANGLY FARM, now in the possession of the said R. B. Lee, situate near the Little Falls of the River Potomac. The tract originally contained about 1600 acres. It will be laid off in convenient parcels to suit purchasers. The situation of the said land is desirable, well watered and adapted to the cultivation of grain and grass. As it is presumed persons disposed to purchase, will view the premises previous to the day of sale further description is unnecessary.

600 acres of Land for sale.

THIS Tract is situated in Westmoreland county, Virginia, adjacent to Mr. Garnett Hunter's Plantation, and contiguous to the waters of the Potomac. The neighborhood is good—water excellent, and very desirable situations for building. A considerable proportion of the land is well timbered, besides a good deal of cedar pine and other wood, sufficiently convenient to make it an object for those who may be disposed to send it to market—it is nearly equi-distant from Baltimore, Washington and Norfolk.

Any one wishing to purchase may apply to ROGER JONES,

Alexandria.

Also, a very valuable LOT, containing 140 acres, being a part of the late Mr. John Turberville's tract—within 6 miles of Georgetown, 3 from the Little Falls Bridge, and near to the turnpike leading from thence to Wiley's, in Fairfax county, Va. A great proportion of this land is exceedingly well timbered, and that part which is not, is so recently cleared as to be in an active state for cultivation, and already in a productive condition.—For terms, apply to PHILIP C. JONES, esq in Leesburg, Va. or to R. JONES.

March 30 tf

Plaister Land.

THE subscriber offers for sale two FARMS, being part of the tract whereon he resides, in Fauquier county, Virginia. One of these farms contains 600 acres, one half, at least, of which, is in wood—the other contains 450 acres, upwards of one third of which is in wood—on the latter are a commodious overseer's house, a new barn, stables, corn houses, and negro quarters, and about 20 acres of well improved timothy meadow. The woodland on both of these farms is covered with a fine growth of red oak and hickory, and the soil, what is denominated first rate tobacco land—the whole of the cleared land is under good enclosures, has had the advantage of a clover lay, and has afforded as strong evidences of its adaptation to the Plaister of Paris, as any land in the state. No land is better watered; both farms being bounded by Broad Run, and having (besides other springs) a never failing stream mill run passing through their centre.

20 Dollars Reward.

RAN AWAY from the subscriber, on Monday morning last, a Negro boy named ALECK, 13 or 14 years of age, very black, has a thin visage, with large mouth, and very staring eyes. He had on when he ran away a pair of blue striped pantaloons, oznaburgh shirt, and an old wool hat. He is very expert, impudent, and something of a liar. I will give Ten Dollars reward if taken within ten miles of Alexandria, or the above reward if taken beyond that distance, and all reasonable charges if brought home.

THOMAS MILBOURN,
Fairfax county, near Alexandria.

Masters of vessels and others are cautioned against harboring or conveying away the said negro, under the penalty of the law.

100 Dollars Reward.

RAN away from the subscriber's farm, near Piscataway, Md. on or about the 1st day of March, 1818, a dark mulatto man named Nick, five feet ten or eleven inches high, slender made, a little deaf, speaks a little through his nose, has been in the habit of wearing rings in his ears, but may have taken them out to avoid discovery. Said negro Nick has a wife on Mr. Thomas A. Diggs's land, near Fort Washington, and is probably harbored in that neighborhood. I will give the above reward of Thirty Dollars, if taken out of the State of Maryland, and Twenty if taken in the State, more than ten miles from home—if within ten miles of home, Ten Dollars.

Dr. Thomson's System of Chemistry.

IN FOUR VOLUMES OCTAVO.

THE preceding edition of Dr. Thomson's Chemistry, had acquired so much reputation both in England and upon the continent of Europe, that a new edition, comprising the new facts with which the science had been enriched, and the new views of the subject which extended knowledge had suggested as indispensable, was eagerly looked for by the scientific world. A new edition has accordingly appeared, wherein the former edition of five volumes has been condensed into four.

All the new discoveries, and all the new theories of Chemical Phænomena, have been considered and embraced in the present improved edition: so that it is indispensable to the chemical student, as presenting the only condensed view of the changes and alterations in chemical doctrine, which the discoveries of the last ten years have suggested. No apology therefore can be necessary for reprinting such a book in this country; for the press does not furnish a substitute for it. But, there is so much theoretical suggestion—so much abstruse calculation—so much fact of dubious authority—and so much dubious validity—that notes and illustrations are absolutely necessary, not merely to render the book more useful, but more intelligible.

Under these impressions, I thought fit to write notes in illustration (and sometimes in contradiction) of the work itself, rather than to make any abridgement of it. Those who wish to know the modern views of chemical science, *must* peruse it; and to very many who will be anxious to study it, elucidation will be necessary. I have endeavoured to supply these, to the best of my ability; regardless whether my own opinions are in dissonance or coincidence with those of my author; leaving to the reader to decide between us.

The work will be published, with notes and illustrations, in four volumes 8vo.

THOMAS COOPER, M. D.

CONDITIONS.

I. The work will be printed on a superfine paper, with a new small pica letter; and will be published early in the ensuing summer.

II. It will be illustrated with a number of cuts, of which several have been necessarily added to the London edition.

III. It will be delivered to subscribers at $12—to non-subscribers at $14, in boards. The London edition sells for $18.

Fan-Sash Making.

METAL FAN-SASHES, of various descriptions, will be made by the subscriber, at his shop, lower end of Duke street. The want of a Metal Fan-Sash Manufactory in Alexandria, has hitherto been severely felt by builders and others, who have been compelled to make use of wood, which is neither elegant nor durable. The various forms into which the metal can be shaped have given it a decided superiority, and the difference in the price is very trifling. The subscriber has been at considerable expence in procuring the necessary preparations, and relies on public enterprise for success in the undertaking.

Gentlemen in the country, by sending the dimensions of their sashes, can have them made at the same price as if in town.

James Kennedy & Son,

RESPECTFULLY inform the public that they have just received from *LEE's MEDICINE STORE*, No. 46, Maiden lane, New-York, a fresh supply of the following valuable MEDICINES:

Hamilton's Worm-destroying Lozenges,

Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

Description of Worms, and the symptoms by which they are known.

Worms which infest the human body are chiefly of four kinds viz.—The Teres or large round worm; the Ascarides or small maw-worm; the Cucurbitine or short flat white worm; and lastly, the Tænia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fœtid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Restorative Powder for the Teeth and Gums.

For the prevention and cure of BILIOUS AND MALIGNANT FEVERS is recommended

HAHN's ANTI-BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

Hamilton's Elixir,

A sovereign remedy for colds, obstinate coughs, asthmas, sore throats, catarrhs, and approaching consumptions.—To parents who have children afflicted with the *HOOPING COUGH*, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable. The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.

Hamilton's Grand Restorative,

Is recommended as an invaluable medicine for the speedy relief and permanent cure of

Nervous Disorders	Violent cramps in the stomach and back
Consumptions	Indigestion
Lowness of spirits	Melancholy
Loss of appetite	Gout in the stomach
Impurity of blood	Pains in the limbs
Hysteric affection	Relaxations, etc.
Inward weaknesses and debility	

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout, rheumatic gout, palsy, lumbago, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc. etc.

Lee's Ointment for the Itch.

Warranted an infallible remedy at one application, may be used with perfect safety by pregnant women, or on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

Hahn's true & genuine German Corn Plaister.

An infallible remedy for corns, speedily removing them root and branch, without giving any pain.

The Genuine Persian Lotion,

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflamatory redness, scurfs, tetters, ringworms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water,

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

Tooth Ache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

Lee's Infallible Ague and Fever Drops

For the cure of agues, remittent and intermittent fevers.

☞ At the place of sale pamphlets may be had gratis, describing cures performed by the above medicines; the number, importance and respectability of which, fully justify every article of this advertisement.
